WELLSBORO SCHOOL NEWS

Burton Lynn Jackson Delighted Student Audience Thursday.

The student audience sat spell-bound Thursday afternoon as Burton Lynn Jackson, artist, presented one of the most outstanding programs of the year's program series.

Mr. Jackson opened his program with a movement from Tchaikovsky's "Andante Cantabile". His varied program included mostly classical and semi-classical music, including such favorites as Schubert's "Ave Maria"; "The Bee"; and "Bacchante"; and "Minuet in G" for encore numbers. His program will long be remembered.

The third in the series of Youth League "budget" movies will be shown to the students Thursday, Feb. 22, the Paramount film, "So Proudly We Hail". The film stars Claudette Colbert, Veronica Lake, Paulette Goddard, and Sonny Tufts, in a spectacular drama of the courageous work of American nurses during the evacuation of Bataan and Corregidor in the first phase of the war with Japan.

The Green and White of Wellsboro High School put up a terrific struggle against the Mansfield quintet Friday, and kept the Mansfield team stepping every minute to maintain the lead. Early in the game, the Wellsboro team opened the scoring, and for a time held the lead. Almost from the opening whistle, the game was a nip and tuck affair.

Spectators were especially impressed by the number of successful long shots made by each team. Edgerton, of Mansfield, who dropped them into the basket in rapid succession, was paced by Coolidge and Campbell of Wellsboro, who sent some "beauties" between the rims.

The score at the end of the first quarter gave Mansfield a margin of 11-9, which rose to 21-11 by the end of the first half. The Wellsboro boys worked vigorously in the third quarter, and did a creditable job when the score at the end of the quarter was 23-21. A series of baskets by the Wellsboro boys, plus a large number of fouls against the Green and White, furnished the opportunity for a Mansfield victory, 38-26.

THE NATIONAL DEBT

Rep. Harold Knutsen (R-Minn.) ranking minority leader of the Ways and Means Committee, last year shook his finger at the Democrats and told them it wouldn't make any difference to the Administration if the House had been talking about "trillions instead of billions."

Knutsen still believes that. He takes an ominous view of the rising national debt.

"If the average father of two children were to liquidate every bit of his real property, put the cash in a pile and add to it all his savings and pocket-cash, he still could not pay his family's share of the national debt," Knutsen pointed out.

"We are now at war and there is nothing to do but go along on the debt increase, but I cannot fail to remind the people that this huge debt, unless it is handled properly, can cause the greatest crisis we have ever faced. If a crisis comes, it will mean financial chaos in America, for all values will be meaningless."

He pointed out that the present national debt "represents more than twice the assessed value of all the real estate in the United States and almost the value of the nation's total wealth, including farms, factories, goods, forests and mines."

"Yet," he added, "we have been told that we owe it to ourselves."

The Bell Telephone System is ready to begin expansion and improvement of rural telephone service as soon as war restrictions permit. The half million miles of telephone pole line already built are capable of serving two-thirds of all rural families in the United States. About 80 per cent of the rural homes are close enough to existing lines so that service could be provided without a construction charge to the user.

There is one place in the United States where there is no manpower shortage—the federal statistical bureau.

TIRE INSPECTION REQUIRED

Failure of commercial motor vehicle operators to comply with regulations requiring periodic tire inspections will adversely affect the claims of these operators for new tires, says Clayton A. District Manager of the U. S. Department of Commerce.

Operators to have their tires checked after each 5,000 miles of operation, or after every six months of operation if operated less than 5,000 miles.

Office of Price Administration action lifting this requirement for passenger car tires in no way affects compliance of commercial motor vehicle operators with ODT tire inspection requirements.

TO INSTALL NEW SCREEN

At The Arcadia Theatre In Wellsboro — Old One Destroyed By Children.

The Arcadia Theatre this week placed an order for a new plastic type motion picture screen to replace the present one, which has been badly damaged by children shooting steel staples and throwing objects at it, resulting in it being punctured in many places.

As a precaution to protect the new screen the management is enforcing a rule which requires all children under 12 years of age to sit in the balcony unless accompanied by their parents or an adult to sit with them.

This new seating arrangement also has eliminated the constant running up and down the aisles by the children, which has in the past caused no end of disturbance to the audience.

Manager Larry Woodin urges all parents to inform their children of this rule and the reasons for it. It is hoped no other restrictions will have to be placed upon the children attending the theatre.

INSPECTORS WIN HONORS

Two Awarded Certificates of Commendation.

Certificates of Commendation from the Philadelphia Ordnance District, Army Service Forces, have been awarded to Sara Dally and Emma Kerstetter, of Williamsport, Army Ordnance inspectors at the Billard Machine and Tool Company, Mansfield, Pa.

Several thousand dollars worth of gauges used in the inspection of parts for the Springfield 1903 rifle, which were being manufactured there, were saved in addition to the Army records which would have been difficult to replace.

In addition, the efforts of these two inspectors in saving the property resulted in the conservation of a large amount of time which would otherwise have been required to manufacture duplicate gauges and reproduce vital records, and time which is of vital importance in the urgent war production program.

THE RED CROSS DRIVE STARTS

The First Of March—The Need For Funds Greater Than Ever.

Tioga county is to be the scene of an invasion, but there is no cause for alarm. No Panzer divisions will roll through the streets, no snipers spray death from the buildings, no planes rain destruction from the skies.

There will, it is true, be an army of invasion, whose members will go into every home, but their objective will be to build up, not to destroy.

In short, the objective of this invasion is the Red Cross War Fund drive. The national quota is \$200,000,000. There is an essential need of funds now, due to the increased casualties and expanded combat areas, but the National Red Cross functions not only in war, but in peace. The Red Cross is always first on the scene at times of civilian disasters, such as floods, fires, hurricanes, and epidemics.

Attorney Robert F. Cox, chairman for the Tioga county Red Cross War Fund drive, has announced that the quota assigned to the county is \$26,400 and that the campaign will begin March 1.

Part of the quota is used for work in Tioga county. Through home service, soldiers' families and helped. Through the Nurses' Aide classes, women are trained to take care of the sick. This is especially necessary now, with so many nurses serving their country.

The Home Nursing classes teach women to take care of the sick or injured in the home. The nutrition classes teach the value of food, and its correct preparation with the limited supplies now available.

There are, at present, 25 Nursing classes in Conowingo, Md., and 10 in the Philippines. The Red Cross is now in the process of organizing similar classes in other parts of the world.

The output of the Production end of the Red Cross work goes around the world. Letters have been received from men as far as Belgium and as near as Indianapolis Gap, thanking them for sweaters knit by Tioga county workers. Kitbags, and their contents, go with fighters to the far corners of the globe. Hospital gowns, fracture pillows, etc., ease the servicemen in hospitals.

When a soldier comes to your home, give gladly. If you have somebody in the service, you know what the Red Cross does for the sick, the wounded, the homeless and the prisoners. If you have no body in the service, you should be doubly eager to give.
